

# LOST BURRO CAMPGROUND and LODGING

The Lost Burro Campground provides a unique camping experience. You will be nestled among Colorado's finest ponderosa and aspen trees, or resting peacefully in a grassy meadow with a cold creek running next to your site. We offer a rustic camping experience with all the modern conveniences so you can enjoy your stay and relax.

Your pets are welcome to camp with you at no extra cost, but must never be left alone at your campsite. It is your responsibility to pick up after your pets no matter where you walk them.

Some campsites are set up to accommodate large parties. It is very important to make your reservations early for these sites. They come with horse shoes, badminton and/or volleyball net at your request and can be set up with a central cooking and eating area.

The Lost Burro Campground is located 4 miles N.W. of Cripple Creek Colorado on county Road 1 and 15 miles from HWY 24 in Florissant Colorado. Cripple Creek is noted for being the most famous Gold Mining town in Colorado.

# LOST BURRO CAMPGROUND and LODGING

We have 50 tent sites, 27 electric sites and 6 full hookup sites hidden among the pines on 27 acres in a secluded valley. A stream running through the valley gives you the opportunity to pan for gold. A 30-foot water fall on the back side of the campground prevents the fish from coming into the campground stream, however there is very good fishing a short distance away. Several hiking trails begin in the campground if you prefer a hike, or lots of open space is available for a leisurely stroll.

We have 2 vacation homes each with 2 bedrooms, 1 bath, a washer and a dryer. These rentals are completely furnished and stocked with cooking utensils, dishes and all the bedding. Both units have 2 futons in the living room so you can sleep 6-8 in comfort. Another choice is our log cabin. This unit has 1 bedroom and a sleeping loft. The loft is set up to sleep 4. It has everything you need including a large screened porch. All units come with a nice place for a campfire, barbecue and tent. These are great options for a gathering where some of the guests don't care to camp outdoors.

The best drinking water you have ever had can be gotten from several water stations around the campground. For your convenience our restrooms, heated showers and dump station are centrally located by the office, along with the ice machine and firewood. We also have supplies and food available in the office/store. Information about local activities is also available
